

Intapp Documents for Corporate Legal

Transform in-house legal workflows and streamline corporate legal matter management with Microsoft 365

Corporate legal departments face an increasing need to deliver efficiency, productivity, and value to their business. This drives a need for tighter control of corporate matter management – matter instruction, intuitive collaboration, matter-centric document management, matter lifecycle management, resource use and more. In-house lawyers need a solution to help take control over spiraling workloads.

Intapp Documents for Corporate Legal delivers a comprehensive matter management solution for corporate legal departments. Using familiar Microsoft 365 applications, the software streamlines matter instruction, triage, and allocation, as well as ongoing matter management. You gain comprehensive matter-centric document and email management, as well as data-driven reporting, insights, and analytics. Built on the Microsoft 365 platform, Intapp Documents for Corporate Legal connects your people, processes, and data to help transform legal operations and deliver efficiency, scalability, and productivity for your legal professionals.

“By leveraging the combined Industry Cloud power of Microsoft and Intapp through our strategic alliances, KPMG Law is raising the productivity of legal departments to a new level.”

What puts Intapp Documents for Corporate Legal ahead

Improve engagement with a dedicated front door

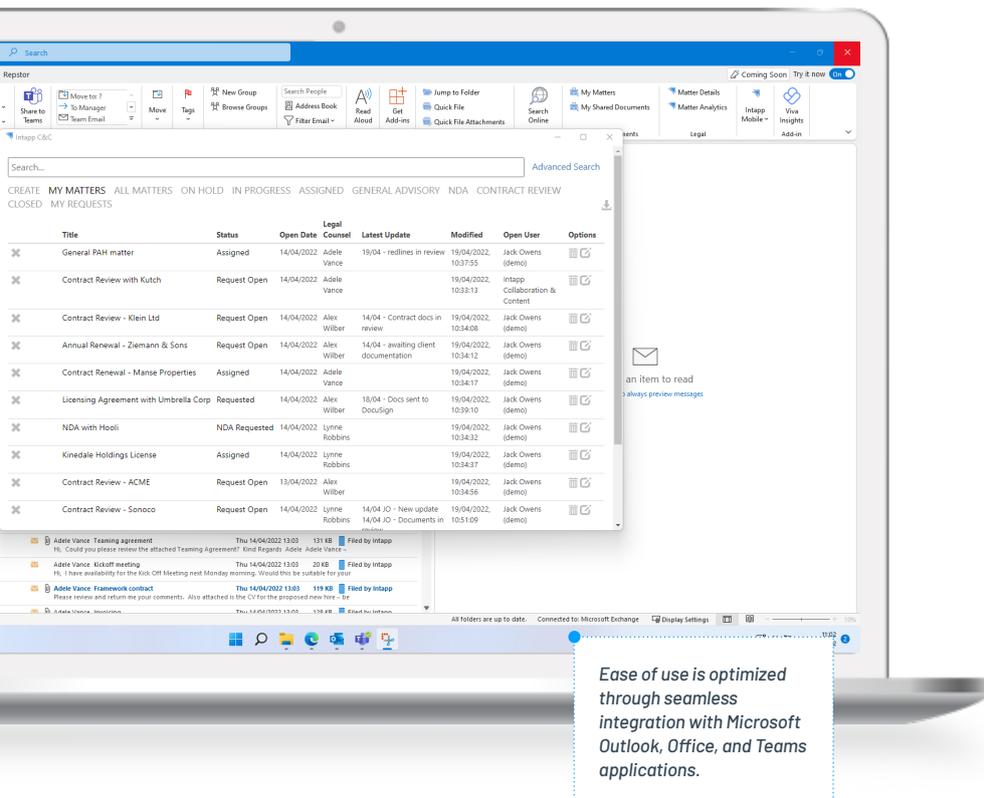

Intapp Documents for Corporate Legal features configurable new business instruction, triage, and allocation processes to deliver improved engagement with your business stakeholders from the outset. Dashboards and real-time reporting deliver real-time matter status throughout the lifecycle.

Deliver matter-centric document and email management

Deliver intuitive, matter-centric document and email management for all types of matters and contracts, optimizing ease of use through seamless integration with Microsoft Outlook, Office, and Teams. Support for offline and mobile work lets legal professionals work from anywhere.

Maximize your existing Microsoft 365 investment

Leverage your existing Microsoft 365 data stores for matter content, removing the need for costly proprietary cloud storage. Advanced Microsoft capabilities – data governance, Viva Topics, and PowerBI – derive insights from your data to drive value for your business and teams.

Routine matter automation

Intapp Documents for Corporate Legal includes document automation and workflow capabilities that let you fully or partially automate routine matters from inception and document creation through to integration using e-signing features.

Deliver matter traceability, insights, and analytics

Track the lifecycle of each matter, complete with matter narrative capabilities. It also provides powerful, data-based insights and analytics on demand to offer valuable business feedback about matter volume, type, and demands; resources consumed; outcomes delivered; and changes over time.
